

MCD Medical Line OMNI.view

Highlights

The high-quality display always offers a view on the essential; beginning with vital data, basic records of a patient up to complex picture and video illustration. Another highlight is the PCAP touch, the external power supply and the application of our LCD Power Adapter.

Hygienic

Imaging devices in medical application fields not only have to provide a brilliant picture, they also have to fulfill the strict requirements presented by the application areas. Hygiene requirements, long availability, longevity and a high quality are crucial criteria. Its outstanding hygienic features come from the choice of a high-quality casing material, in combination with an IP65 design. This substantially eases and speeds up the cleaning and disinfection procedures.

3 years warranty

We are convinced of our products and offer 3 years warranty as a standard, which can be extended to up to 5 years.

TECHNICAL DATA

SPECS

HOUSING	
Material	Metal (powder coated)
Color	White (RAL9003 matt)
Dimensions	550x340x50mm (WxHxD)
Weight	Approx. 5.2 kg
IP-Class	IP65 Front IP54 Rear side
DISPLAY	
Panel	21.5" Full HD LED
Pixel failure class	Class 1
Resolution	1920 x 1080 pixels (Full HD)
Viewing angle	Horizontal 178° / Vertical 178°
Brightness	250 cd/m ²
Color	16.7 million colors
Pixel/ Dot/ Pitch	0.2475 mm

INTERFACES

Video	1 x VGA
	1 x DVI-I
	1 x HDMI

POTENTIAL EQUAL.

Bolt according to DIN 42801

CONFORMITY

CE, EN/IEC 60601-1, EN/IEC60601-1-2

OPTIONS

Projected capacitive touch (also usable with medical gloves)
Power supply max. 120 watts, external
LCD Power Adapter
Stand
